

# Music Fun Time

Music FunTime is an innovative and proven early childhood curriculum, for toddlers, preschoolers, and young children ages 18 months to 7 years. Our program is based on Johns-Hopkins Research that children 7 and under can learn to read music notation and symbols, and play instruments while fostering their ability to grasp math and science as they develop.

Music FunTime is NOT a simple play group where children sing, dance, jump & play instruments. The program focuses on learning music theory in a fun, artistic way through specially developed games and crafts. The curriculum changes every 5 minutes to hold their attention. Classes are 30 minutes in length once a week.

Learning music theory can give your child a cognitive edge that can last a lifetime

## RESEARCH HAS PROVEN THAT LEARNING MUSIC:

- Increases a child's comprehension and math skills
- Helps your child become more confident, and better at communication
- Allows children to apply the same learning concepts to other areas such as reading, writing, and arithmetic

## MUSIC FUNTIME:

- Teaches at a very young age, how to actually read music, play music, and understand music theory
- Teaches the music staff, bass clef, treble clef, rhythm, note values, time signatures, and more
- Keeps kids excited and involved, playing instruments and exploring new sounds and music
- It's fun, easy to do, and the best part is ~ KIDS LOVE IT!

**Give your child a proven, life-long learning advantage**
